About Me

I am a neuroscientist with a biomedical and psychological background. For the past 8 years I have been studying cognitive flexibility. More recently, I have gained interest in statistics and programming, which helps me to improve my data analyses.

Languages

- Dutch
- English
- French
- Spanish
- German

Hard Skills

- Laboratory Skills
- ☒ Neurosurgical lesions
- ☒ Neurosurgical implantations
- ☒ IHC/nissl stainings
- ☒ Brain perfusion/extraction
- ☒ Injections (IP/SC/IM)
- ☒ Optogenetics
- ☒ Flowcytometry

Work Experience

- currently **QA Analyst/Consultant** Johnson&Johnson
Quality Assurance in the European Distribution Center (EDC) for Medical Devices (Johnson & Johnson) as consultant for Altran - Capgemini.
- 2013-2020 **Neuroscientist** KU Leuven - Brain and Cognition
Preclinical brain research. Main topic: cognitive flexibility. Lab of Prof. Dr. Rudi D'Hooge.
- 2008 **Lab technician** University Ghent - Dep. of Virology
Quantification of cellular immunological memory after measles vaccination through intracellular cytokine detection using flowcytometry. Lab of Prof. Dr. Geert Leroux-Roels.

Education

- 2014-2020 **PhD Neuroscience** KU Leuven
Thesis: Pharmacological mechanisms and telencephalic interactions involved in neurocognitive flexibility
- 2008-2013 **Master of Science in Theoretical and Experimental Psychology** Ghent University
Thesis: Jouw pijn is mijn pijn, maar... "Does it matter if you're black or white?"
- 2005-2008 **Bachelor in Biomedic Laboratory Technology, Pharmaceutical and Biological Techniques** University College - Ghent
Thesis: Quantification of cellular immunological memory after measles vaccination through intracellular cytokine detection.

Grants

- 2014 Doctoraatsbeurs Strategisch Basisonderzoek IWT/FWO

Conferences & Presentations

- 08/2017 **European Behavioural Pharmacology Society** Heraklion - Greece
Perseverative behaviour in low-dose MK801-treated mice
- 07/2017 **RIKEN Brain Science Institute** Tokyo - Japan
Impaired reversal learning after NMDA-induced lesions in the PFC-HC network
- 05/2017 **Belgian Society for Neuroscience** Ghent
Effect of MK801 on learning and memory
- 07/2016 **Federation of European Neurosciences Societies** Copenhagen - Denmark
Cognitive flexibility: Modulation of prefrontal-hippocampal network

Certificates and Courses

- 03/2020 Introduction to SAS FLAMES
- 01/2020 Python for Machine Learning VSC - KU Leuven
- 01/2020 Python for Data Science VSC - KU Leuven
- 01/2020 Scientific Python VSC - KU Leuven
- 10/2019 Matlab programming introduction VSC - KU Leuven
- 10/2019 Linux scripting VSC - KU Leuven
- 12/2016 Non-parametric statistics Leuven Statistics Research Centre

Neuroscientist

Data-analyst

Behavioural Testing

- ✓ Morris Water Maze
- ✓ T-Maze
- ✓ Rotarod
- ✓ Open Field
- ✓ Elevated Plus Maze
- ✓ Touchscreen visual discrimination
- ✓ Odor discrimination

Computer Skills

- ✓ R
- ✓ SAS
- ✓ Python
- ✓ SQL
- ✓ Stata
- ✓ SPSS
- ✓ Matlab
- ✓ C
- ✓ LaTeX

 Driver's license: B (2004)

Soft Skills

07/2014	FELASA C - Laboratory Animal Sciences	Biomedical Sciences - KU Leuven
03/2010	Vaccinations in the 21 st century	Ghent University
02/2008	The tumor micro-environment: new insights and therapeutic perspectives	Ghent University
03/2007	Viral infections during pregnancy and in children. Disease and bio-safety in the lab	Ghent University
2007	Kjeldahl method	Ghent University
2004	Business Management	OLVL Highschool

Publications

2021	Effects of orbitofrontal cortex and ventral hippocampus disconnection on spatial reversal learning. <i>Thonnard, D., Callaerts-Vegh, Z., D'Hooge, R.</i> Neuroscience Letters, 135711 DOI
2020	Comparison between touchscreen operant chambers and water maze to detect early prefrontal dysfunction in mice. <i>Van den Broeck, L., Hansquine, P., Sierksma, A., Thonnard, D., Vegh-Callaerts, Z. & D'Hooge, R.</i> Genes, Brain and Behavior, e12695 DOI
2019	Differential effects of post-training scopolamine on spatial and non-spatial learning tasks in mice <i>Thonnard, D., Callaerts-Vegh, Z., D'Hooge, R.</i> Brain Research Bulletin, 152, 52-62 DOI
2019	NMDA receptor dependence of reversal learning and the flexible use of cognitively demanding search strategies in mice <i>Thonnard, D., Dreesen, E., Callaerts-Vegh, Z., D'Hooge, R.</i> Progress in Neuropsychopharmacology & Biological Psychiatry, 90, 235-244 DOI
2011	Oorzaken en gevolgen van een verhoogd glucose metabolisme bij kanker <i>Thonnard, D., Vermeulen, S.</i> Tijdschrift van de Belgische Vereniging van Laboratorium Technologen, 38(1), 17-23 DOI
