About Me

I am a neuroscientist and data scientist with a biomedical and psychological background. For the past 8 years, I have been conducting preclinical work studying cognitive flexibility. During this period, I have also developped a wide array of statistical and data-related skills. More recently, I have been combining academia with industry.

Hard Skills

⚗ Laboratory Skills

- ☑ Neurosurgical lesions
- ☑ Neurosurgical implantations
- ☑ IHC/nissl stainings
- ☑ Brain perfusion/extraction
- ☑ Injections (IP/SC/IM)
- ☑ Optogenetics
- ☑ Flowcytometry

Work Experience

currently   **QA Analyst/Consultant**   Johnson&Johnson
Quality Assuruance in the European Distribrution Center (EDC) for Medical Devices (Johnson & Johnson) as consultant for Altran - Capgemini.

2013-2020   **Neuroscientist**   KU Leuven - Brain and Cognition
Preclinical brain research. Main topic: cognitive flexibility. Lab of Prof. Dr. Rudi D'Hooge.

2008   **Lab technician**   University Ghent - Dep. of Virology
Quantification of cellular immunological memory after measles vaccination through intracellular cytokine detection using flowcytometry. Lab of Prof. Dr. Geert Leroux-Roels.

Education

2014-2020   **PhD Neuroscience**   KU Leuven
Thesis: Pharmacological mechanisms and telencephalic interactions involved in neurocognitive flexibility

2008-2013   **Master of Science in Theoretical and Experimental Psychology**   Ghent University
Thesis: Jouw pijn is mijn pijn, maar... "Does it matter if you're black or white?".

2005-2008   **Bachelor in Biomedic Laboratory Technology, Pharmaceutical and Biological Techniques**   University College - Ghent
Thesis: Quantification of cellular immunological memory after measles vaccination through intracellular cytokine detection.

Grants

2014   Doctoraatsbeurs Strategisch Basisonderzoek   IWT/FWO

Conferences & Presentations

08/2017   **European Behavioural Pharmacology Society**   Heraklion - Greece
Perseverative behaviour in low-dose MK801-treated mice

07/2017   **RIKEN Brain Science Institute**   Tokyo - Japan
Impaired reversal learning after NMDA-induced lesions in the PFC-HC network

05/2017   **Belgian Society for Neuroscience**   Ghent
Effect of MK801 on learning and memory

07/2016   **Federation of European Neurosciences Societies**   Copenhagen - Denmark
Cognitive flexibility: Modulation of prefrontal-hippocampal network

Certificates and Courses

03/2020	Introduction to SAS	FLAMES
01/2020	Python for Machine Learning	VSC - KU Leuven
01/2020	Python for Data Science	VSC - KU Leuven
01/2020	Scientific Python	VSC - KU Leuven
10/2019	Matlab programming introduction	VSC - KU Leuven
10/2019	Linux scripting	VSC - KU Leuven
12/2016	Non-parametric statistics	Leuven Statistics Research Centre

Neuroscientist
Data-analyst

👣 Behavioural Testing

- ☑ Morris Water Maze
- ☑ T-Maze
- ☑ Rotarod
- ☑ Open Field
- ☑ Elevated Plus Maze
- ☑ Touchscreen visual discrimination
- ☑ Odor discrimination

🖥 Computer Skills

- ☑ R
- ☑ SAS
- ☑ Python
- ☑ SQL
- ☑ Stata
- ☑ SPSS
- ☑ Matlab
- ☑ C
- ☑ LaTeX

🚗 Driver's license: B (2004)

Soft Skills ——————

Leadership
Risk Management
Project Management
Communication
Problem Solving
Planning

Explorative
Analytic Mind
Personal Aspect
Critical Mind
Innovative

07/2014	FELASA C - Laboratory Animal Sciences	Biomedical Sciences - KU Leuven
03/2010	Vaccinations in the 21ˢᵗ century	Ghent University
02/2008	The tumor micro-environment: new insights and therapeutic perspectives	Ghent University
03/2007	Viral infections during pregnancy and in children. Disease and bio-safety in the lab	Ghent University
2007	Kjeldahl method	Ghent University
2004	Business Management	OLVL Highschool

Publications

2021 **Effects of orbitofrontal cortex and ventral hippocampus disconnection on spatial reversal learning.**
Thonnard, D., Callaerts-Vegh, Z., D.'Hooge, R.
Neuroscience Letters, 135711 DOI

2020 **Comparison between touchscreen operant chambers and water maze to detect early prefrontal dysfunction in mice.**
Van den Broeck, L., Hansquine, P., Sierksma, A., Thonnard, D., Vegh-Callaerts, Z. & D'Hooge, R.
Genes, Brain and Behavior, e12695 DOI

2019 **Differential effects of post-training scopolamine on spatial and non-spatial learning tasks in mice**
Thonnard, D., Callaerts-Vegh, Z., D.'Hooge, R.
Brain Research Bulletin, 152, 52-62 DOI

2019 **NMDA receptor dependence of reversal learning and the flexible use of cognitively demanding search strategies in mice**
Thonnard, D., Dreesen, E., Callaerts-Vegh, Z., D'Hooge, R.
Progress in Neuropsychopharmacology & Biological Psychiatry, 90, 235-244 DOI

2011 **Oorzaken en gevolgen van een verhoogd glucose metabolisme bij kanker**
Thonnard, D., Vermeulen, S.
Tijdschrift van de Belgische Vereniging van Laboratorium Technologen, 38(1), 17-23 DOI
